

Press Release 13/2026

Neustadt-Fernthal, May 2026

BOY showcases state-of-the-art injection moulding technology at Interplas in Birmingham

Along with its UK representative, BOY Ltd., Dr. Boy GmbH & Co. KG will be presenting state-of-the-art, energy-efficient injection moulding solutions for a wide range of applications at Interplas 2026, which takes place in Birmingham from 2 to 4 June 2026.

A total of four injection moulding machines from the current product range will be on display at the BOY Ltd. stand: a BOY 20 E PRO, a BOY 50 E, a BOY 25 E VH and the electromechanical BOY 35 Electric. This will give visitors a comprehensive insight into BOY's compact and high-performance injection moulding technology.

The injection moulding machines on display exemplify high precision, energy efficiency and a small footprint – qualities that have made BOY a sought-after partner in the plastics processing industry for many years.

Alongside the BOY Ltd. team, BOY staff will also be on hand throughout the exhibition to answer technical questions, discuss industry matters and hold one-to-one discussions, and they look forward to welcoming many visitors to the stand.

Visit BOY Ltd. at Interplas Hall 11 Booth E50 and experience state-of-the-art injection moulding technology first-hand.

Company profile

Dr. BOY GmbH & Co.KG is a leading global manufacturer of injection moulding machines with clamping forces up to 1,250 kN. These highly compact, durable machines operate with precision, are energy-efficient and therefore extremely economical. With its innovative concepts and solutions, BOY continues to prove itself as a trendsetter. Automation, digitalisation, sustainability and CO₂ reduction are particular areas of focus. Since the company was founded in 1968, over 55,000 injection moulding machines have been delivered to customers on every continent. The owner-managed company is consistently committed to engineering excellence and quality workmanship 'Made in Germany'. For more information visit www.dr-boy.de
